保利®展览  
Poly Exhibition

# China's Rehabilitation Aids Industry: *High Demand Creates New Opportunities*

 **240 million**  
elderly people

+

 **85 million**  
disabled people

**\$ 110.6 billion**  
market size by 2020

 **15% average annual growth rate**

\* Statistics from data released by the Ministry of Civil Affairs and China Disabled Persons' Federation

**China has the largest demand for rehabilitation aid products and is the greatest market potential in the world.**

Compared with developed countries and regions, the late start of the rehabilitation devices industry in China has led to a smaller industry scale and lower maturity in its development. As people expect increasingly higher quality health care, China's demand for high-quality rehabilitation devices will grow. Hence, **internationally leading products and technologies will have an edge in the Chinese market.**

**25,000m<sup>2</sup>**  
Exhibition Area

**350+**  
Exhibitors

**50,000+**  
Visitors

## WHY? Exhibit .

### Most Authorized and Largest Exhibition

The largest exhibition in China for care and rehabilitation industry and the unique fair hosted by the responsible government authority - China Disabled Persons' Federation.

### Accurate Matching Meetings

The accurate match making meetings enable one-stop connection to government purchase institutes covering all relevant branches under Disabled Persons' Federation, rehabilitation hospitals, special education and elderly care.

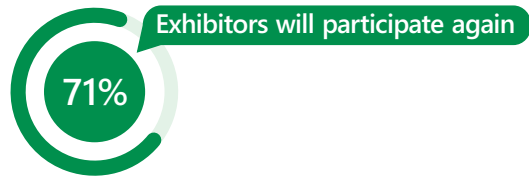

### High-level Conferences with Top Experts

Over 20 concurrent conferences gather more than 200 experts and 10,000 attendees which provide profound insight to different sectors of the industry.

### Brand Exposure by Integrated Marketing

With more than 300,000 data, strong media network and various marketing tools, exhibitors will be exposed to trade visitors all year round.
